

LHS115-4Y Series---Hydraulic Rotary Joint

LHS115-4Y Description:

LHS115-4Y product with 4 Hydraulic Oil Channels, OD 115 mm, suitable for rotating application, interface thread G1/2", support 0-12 channels.

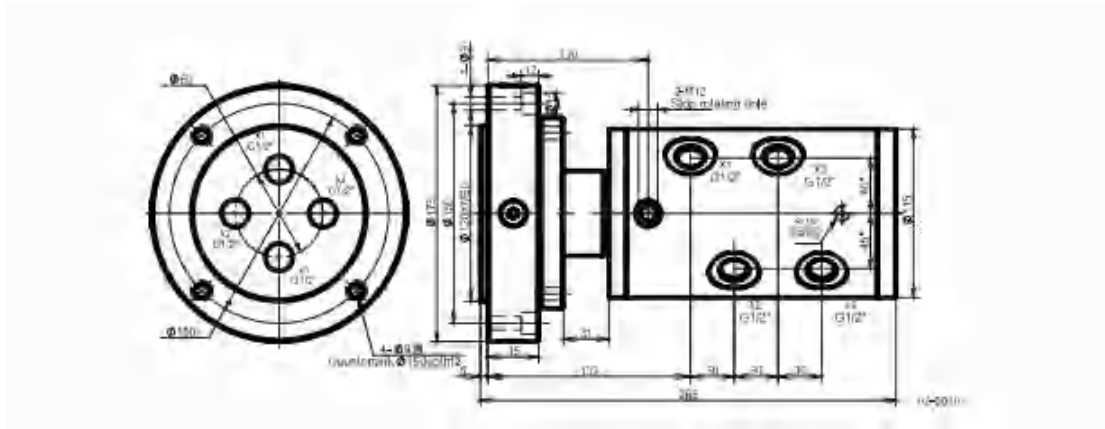

LHS115-4Y Customized Options:

- ◆ Number of electrical, gas and liquid circuits
- ◆ Cable length
- ◆ Number of channels
- ◆ Working medium and working pressure of gas and liquid circuits
- ◆ Wire length, connection terminals
- ◆ Shell material and color
- ◆ Protection level
- ◆ Rated speed

Typical Application:

Industrial machine processing center, rotary table, heavy equipment tower, cable reel, packaging equipment, magnetic clutch, process control equipment, rotation sensor, emergency lighting equipment, robot, exhibition/display equipment, medical equipment, revolving door, etc.

LHS115-4Y Standard Drawing :

LHS115-4Y Technical Parameters:

Rotary Joint Technical Parameter	
No of Channel	4 Channel or Custom
Interface Thread	G1/2"
Flow Hole	Φ8
Medium	Hydraulic Oil
Pressure	21 Mpa
Rotating Speed	≤200rpm
Temperature	-30°C~+80°C
